### Paying for Experience

A severe "belly ache" is the price paid for the fun of eating green apples. Mamma told them not to do it, but it took actual experience to convince them.

We say the same thing about green lumber. It may look right, but after it is in the job a while, it will warp out of shape, and a bunch of trouble is what the experience will cost you. If you want to be sure of getting good, thoroughly seasoned lumber, don't take any chances, but come to us for it. It will cost you no more than the other kind will elsewhere.
